The Concept: Carefree Bohemian Luxury

The sun slowly fades away, melting from fire to water as it plunges seductively into the sea. The sky turns claret and the soft breeze becomes cooler with the promise of nighttime adventures. Your playground is the enchanting Summer Lovers villa, set high on the cliffs in the elusive Akrotiri area of Santorini. Split over multiple levels and 3 independent units, this enrapturing home can host a total of 10 guests in 5 lavish bedrooms, offering enviable views of the caldera and the sapphire waters of the sea. This is what the edge of paradise looks like, Santorini style.

Outdoors

Cycladic architecture blends harmoniously with eastern exoticism for an unexpected taste of the tropics in this spellbinding summer home. Palm trees flank the terrace, a hammock swings gently in the breeze, and 3 hot tubs lure you into moments of pure relaxation. Lay back on a lounger with a drink from the pool bar or sit by the swimming pool, admiring the jaw-dropping view. Alfresco meals are easy here, with multiple outdoor tables to have breakfast, lunch and dinner. For quieter moments, practice yoga and meditate against the backdrop of the imposing caldera or indulge in an aromatherapy session in the spa area.

Interior

Upon entering, your eyes and hearts will be caught by the unique design. The golden and beige color palette creates a lux feel, while the intricate patterns and artsy, whimsical design elements have been used beautifully to compliment the spaces. The villa offers 5 double-bed bedrooms, 4 bathrooms, 2 living rooms, a fully equipped kitchen and 2 kitchenettes, with flashy details and attention-grabbing items in all the rooms adding a dramatic tone. Summer Lovers villa offers a harmonious blend of Moroccan style with Greek island beauty!

Good to know

Found on the southwestern end of Santorini, the area of Akrotiri is very close to some of the nicest beaches on the island. The out-of-this-world Red Beach, the moon-like Vlychada and the fun beaches of Perivolos and Perissa with the unique volcanic black thick sand and water sports facilities. Add the villa’s amazing views across the whole island and you have a few reasons to book this property without too much thinking. PS.: Don’t forget to pay a visit to the archaeological site of Akrotiri, the excavation of an advanced prehistoric settlement that was buried in the lava of the volcanic eruption.
